

**16<sup>th</sup> International Symposium on Functionally Graded Materials, Hartford, Connecticut, USA  
August 9-12, 2020**

**Mini-Symposium Title:** Biomaterials and Interfaces

**Organizers:**

Professor Yu Zhang, [yz21@nyu.edu](mailto:yz21@nyu.edu), Department of Biomaterials and Biomimetics, New York University College of Dentistry, New York, NY 10010, USA. Phone: +1 212-998-9637

Professor Jeongho Kim, [jeongho.kim@uconn.edu](mailto:jeongho.kim@uconn.edu), Department of Civil & Environmental Engineering, University of Connecticut, Storrs, CT 06269, USA. Phone: +1 860-486-2746

**Description:**

Bioinspired engineering and biomimetic design has become a fast-evolving field that provides solutions to problems in medicine, dentistry, and an array of engineering disciplines. The primary goal of such approaches is to improve the properties and functionalities of biomaterials. This symposium focuses on the structure-function-property of biomaterials and interfaces. Some examples of biomimetic and bioinspired designs of dental restorative materials are given.
